

## **HISTORIC DRIVE**

# **Lung fundraiser**

JACK Evans, aged 76, has set out in a car four years older than himself to recreate an historic drive across Australia for charity.

Mr Evans, from Armidale in NSW, aims to cover the 4000km from Perth to his home town to raise funds for the Australian Lung Foundation.

His "Triumph for Breath" marathon is in a 1929 Triumph Super Seven. A former cabinet maker, Mr Evans lost his wife Gill to chronic obstructive pulmonary disease three years ago.
